With Christmas fast approaching and your 'to do' list getting bigger you may be feeling overwhelmed. **"The secret of getting started is breaking your complex, overwhelming tasks into small manageable tasks, and then starting on the first one."** - Mark Twain. Sit down with a piece of paper and write down all your tasks to be completed by the end of the year. Be realistic – there isn't much time left. Once you have jotted the list down, priorities it. Most important to least important. This gives you a clear indication of what you really need to get done and it also becomes less stressful. If you find yourself overwhelmed with tasks regularly contact us. We will listen to your needs and develop a solution focused plan that will get you back on top of things, leaving you more time to do the things you enjoy. ## FACEBOOK

It's nearly impossible in this day and age not to know about **Facebook**. Facebook is a social network site that started out strictly for college students and was available by invitation only. Now, it is a cultural phenomenon stretching across the globe. With more worldwide users than MySpace, Facebook has taken hold as undisputable leader amongst social networking sites. There are more than 500 million active users and 50% active users log on in any given day and people spend over 700 billion minutes per month on Facebook. 'Like' [www.facebook.com/ptconcierge](http://www.facebook.com/ptconcierge) to be apart of this phenomenon. We are having lots fun getting organised in the home using the alphabet. It is a great interactive way to complete tedious chores in your home.
